

## Albert Y. Kim, PhD

---

CONTACT  
INFORMATION      Mathematics and Statistics Department  
Amherst College  
202 Seeley Mudd Building  
31 Quadrangle  
Amherst MA, 01002  
Webpage: <http://rudeboybert.github.io/>  
Work E-mail: [aykim@amherst.edu](mailto:aykim@amherst.edu)  
GitHub: <https://github.com/rudeboybert>

EDUCATION      **University of Washington**, Seattle WA      August 2011  
Ph.D., Statistics

- Thesis Topic: *A Bayesian Surveillance System for Detecting Clusters of Non-Infectious Diseases.*
- Advisor: Professor Jon C. Wakefield.
- Area of Study: Spatial Epidemiology, Biostatistics, Markov Chain Monte Carlo Methods.

**McGill University**, Montreal QC      December 2003  
B.Sc., Joint Honours in Mathematics and Computer Science

- *First Class Honours.*
- Minor in Management.

ACADEMIC  
EXPERIENCE      **Amherst College**, Amherst MA      August 2017 to Present  
Lecturer in Statistics, Mathematics and Statistics Department

- Courses taught:
  - Introduction to Statistical Science (STAT 135)
  - Advanced Data Analysis (STAT 495)

**Middlebury College**, Middlebury VT      August 2015 to July 2017  
Assistant Professor of Statistics, Mathematics Department

- Courses taught:
  - Introduction to Statistical and Data Sciences (MATH 116): Introductory statistics aimed primarily at non-math majors.
  - Introduction to Data Science (MATH 216, new course): Analysing large and complex data sets using advanced statistical software.
  - Statistical Learning (MATH 218, new course Spring 2017): Machine/statistical learning at a level appropriate for a student who hasn't taken an upper-level undergraduate probability course.
  - Theory of Statistics (MATH 311): Upper-level undergraduate statistics course.

**Reed College**, Portland OR      August 2013 to July 2015  
Visiting Assistant Professor of Statistics, Mathematics Department

- Responsibilities:
  - Teaching undergraduate probability and statistics courses.
  - Supervising senior theses.
- Courses taught:

- Introduction to Probability and Statistics (MATH 141): Introductory statistics aimed primarily at non-math majors.
- Probability (MATH 391): Upper-level undergraduate probability course.
- Mathematical Statistics (MATH 392): Upper-level undergraduate statistics course.
- Case Studies in Statistical Analysis (MATH 241, new course): Analysing large and complex data sets using advanced statistical software.

**University of Washington Seattle, WA**

June 2010 to August 2010

Pre-Doctoral Instructor, Statistics Department

- Courses taught:
  - Statistics for Engineers and Scientists (STAT/MATH 390): Introductory statistics for non-statistics science and engineering majors.

**University of Washington Seattle, WA**

September 2004 to June 2005

Teaching Assistant, Statistics Department

- Courses taught:
  - Basic Statistics (STAT 220): Introductory statistics for non-science majors.

PROFESSIONAL  
EXPERIENCE

**Decision Support Engineering Analyst**

June 2011 to March 2013

Ads Metrics, Google Inc., Mountain View, CA

- Manager: Nicholas Chamandy
- Responsibilities:
  - Quantitative analyst in Ads Metrics (analyst sub-team of Google AdWords), tasked with ensuring the quality of search ads shown on google.com.
  - Extensive use of Google's internal MapReduce system for distributed computing on clusters of computers
  - Use of advanced statistical techniques for analysis in a "big data" setting.
  - Communicated results and findings to other analysts, engineers, and managers in the Ads Quality branch of Google AdWords.
  - Specific projects contributed to as an analyst: a) Long-Term Value revamping of the Google AdWords auction procedure b) Ads Human Evaluation, members of which analyze user ratings of ads shown on google.com c) Personalization effort to optimize ads targeting on google.com.

**Decision Support Engineering Analyst Intern**

January 2010 to March 2010

Ads Metrics, Google Inc., Mountain View, CA

- Manager: Nicholas Chamandy
- Responsibilities:
  - Same as full time position described above.
  - Specific projects contributed to as an analyst: Task Classification Project, where the intent of Google users are modeled based on search queries and ad clicks.

COMPUTING SKILLS	<ul style="list-style-type: none"> <li>• Programming languages: C, C++, Python, MySQL, Java, Julia.</li> <li>• Applications: R, Git, MapReduce, MATLAB.</li> <li>• Maintainer of the following R open-source software packages: <ul style="list-style-type: none"> <li>◦ <code>SpatialEpi</code>: Data and methods for spatial epidemiology.</li> <li>◦ <code>resampled</code>: Package of data sets from “Mathematical Statistics with Resampling in R” by Chihara and Hesterberg.</li> <li>◦ <code>fivethirtyeight</code>: Data and Code Behind the Stories and Interactives at FiveThirtyEight.</li> </ul> </li> <li>• Contributor to <code>oilabs</code> R package of data and code necessary for R labs accompanying OpenIntro textbook.</li> </ul>
JOURNAL REVIEW SERVICE	<ul style="list-style-type: none"> <li>• The American Statistician</li> <li>• Journal for Quantitative Analysis in Sports</li> <li>• Technology Innovations in Statistics Education</li> <li>• Journal of Statistics Education</li> </ul>
EXTERNAL SERVICE	<ul style="list-style-type: none"> <li>• Organizing committee, 2017 ASA DataFest.</li> <li>• Volunteer for OpenIntro open-source introductory statistics textbook.</li> </ul>
WORKSHOPS ATTENDED	<ul style="list-style-type: none"> <li>• 2016 NES/MAA Vermont Workshop on “Teaching Calculus Now” by Prof. David Bressoud, Saint Michael's College, Colchester VT, October 2016.</li> <li>• Park City Mathematics Institute Summer Session Faculty Program on establishing a curriculum for Data Science, Midway UT, July 2016.</li> <li>• Big Data: Implications for the Liberal Arts Curriculum, Wellesley College, Wellesley MA, January 2016.</li> </ul>

- Advanced R, JSM 2015, Seattle WA, July 2015.
- New Researchers Conference, JSM 2015, Seattle WA, July 2015.
- OpenStreetMaps workshop, Foss4G Free and Open Source Software for Geospatial conference, Portland OR, Sept 2014.

- COLLEGE SERVICE
- Faculty lead for Green Chicken student math competition between Williams and Middlebury Colleges (co-lead with Prof. E. Proctor), 2016.
  - Faculty lead for R Community of Practice for Middlebury Faculty, 2016-present.
  - Co-organizer of inaugural ASA DataFest Vermont (with Prof. P. Yates, Saint Michael's College), 2016.
  - Chief organizer of ASA DataFest Vermont (Middlebury College), 2017.
  - Volunteer judge for ASA DataFest Five Colleges (UMass Amherst) 2016 and 2017.
  - Co-creator of Reed College statistics concentration within mathematics major (with Prof. A. Jones), 2015.

- PERSONAL
- Languages: English, French (fluent), Korean (conversational).
  - Interests: American history, hiking, standup paddleboarding, hockey, skiing, bicycling, and backcountry camping.
